I charge monthly for these types of campaigns, so that the budget of each business is utilized efficiently for their unique advertising needs, and so that ad creative can be adjusted to increase user interaction. This way, my focus is always on ad performance. Here's the breakdown:

Flat Rate Per Month = \$100

<-- for the foundational background work

Ad Creation = \$50 (Static) or \$100 (Video)

<-- for the specific ad(s) that need to be created

% of total ad spend in one month = 10%

<-- for ad management + continued performance

--

Example

You budget \$600 to put a search ad up on Google for 4 months. This means that my work will cost \$165 for the first month and \$345 for Months 2,3 and 4 - ending up with a total of \$510 after the entire campaign has ended.

$$\$100 + \$50 + ([\$600/4] \times 0.1) = \text{Month 1 Total}$$

$$\$100 + \$50 + (\$150 \times 0.1) = \text{Month 1 Total}$$

$$\$100 + \$50 + \$15 = \$165$$

$$(\$100 \times 3) + ([\$150 \times 3] \times 0.1) = \text{Months 2, 3 and 4 Total}$$

$$\$300 + (\$450 \times 0.1) = \text{Months 2, 3, and 4 Total}$$

$$\$300 + \$45 = \$345$$

Grand Total = \$510
